

Tia gets “feet on the ground” in Norway

We are delighted to announce that from January 2020, Tia has once again a local presence in Norway.

Harald Saksvik joins the Services team (Nordic) as Engagement Director and will be based in Oslo.

Harald has been the CIO of Insr/NEMI for the past five years and has a lot of insight into Tia, our community and the Norwegian insurance scene, so he is already a familiar face to many of our Norwegian customers and the wider Tia community. Previously, Harald worked at Storebrand Helse and his combined experience from a Tia customer perspective, working with Tia as Service partner, as well as a thorough understanding of the local market, makes him an exceptional addition to help our Norwegian customers flourish with Tia.

We are looking forward to Harald starting, and making Tia even closer to our valued customers in Norway.
